SpineNevada recognized in Becker's Hospital Review's list of "150 Great Places to Work in Healthcare" for Second Consecutive Year

RENO, NV (March 2, 2017)-- SpineNevada Minimally Invasive Spine Institute is pleased to release that the multidisciplinary spine center has been recognized in Becker's Hospital Review's "150 Great Places to Work in Healthcare | 2017" list. The list recognizes organizations committed to fulfilling missions, creating outstanding cultures and offering competitive benefits to their employees. This is SpineNevada's second consecutive year to achieve this recognition.

SpineNevada, which has five locations, offers employees medical, dental, vision and life insurance, in addition to perks like bonuses, incentives and a week of paid time off at Christmas gifted by the company. The company is flexible with employee scheduling and encourages professional growth with continuing education reimbursement, on-going training for administrative staff and career development. Its employee turnover rate is 3 percent.

In addition to this Great Places to Work honor from Becker's Hospital Review, SpineNevada has earned numerous workplace awards including Modern Healthcare's "Best Places to Work in Healthcare" for two consecutive years and Quantum Workplace's Best Places to Work in Northern Nevada recognition for multiple years.

"Our staff through remarkable individual and group dedication to our mission and goals, not only make this recognition possible, but also help ensure SpineNevada's success. We are so pleased to share this honor with each of our team members," remarks Dr. James Lynch, neurosurgeon and founder of SpineNevada.

The "150 Great Places to Work in Healthcare" list features both healthcare provider organizations and other healthcare-specific companies. The Becker's Hospital Review accepted nominations for this list and developed an editorial review process to include organizations that have gone above and beyond to make their hospitals, health systems and companies great places to work.

About SpineNevada Minimally Invasive Spine Institute

SpineNevada is a regional center specializing in back and neck conditions. What makes SpineNevada different from other treatment centers is its nonsurgical approach to back and neck problems. The multidisciplinary team approach involves nonsurgical spine physicians, spine surgeons and spine-specialized physical therapists. This means our health care team of professionals will pool together their expertise to develop the best treatment for each patient.

SpineNevada includes internal physical therapy and injection therapy, X-ray and MRI capabilities — all under one roof. We provide all the necessary diagnostic testing and treatment in one place, helping to eliminate the need for multiple referrals, delayed care and confusion. SpineNevada has multiple Northern Nevada offices located in Reno, Sparks and Carson City.
